

Tall Ships 2017

Going on the Tall ships adventure this year was an incredibly rewarding experience. On the first couple of days we were shown and taught how to sail at sea and specifically all of the things that enable a boat to sail, for example, we were taught how to correctly tie and untie ropes onto the pins and the correct way to haul and ease the ropes when at sea. After we went off to sea we were asked to go on watches throughout the day. My watch, red watch, had the most early morning shifts out of any watch and we also brought the boat into its final destination Cork. Unfortunately halfway through the trip I caught a nasty stomach bug and was ill for the rest of the trip and hindered my ability to perform tasks and I am still getting over it to this day. However overall the trip was one of the best I've ever had and met lots of new friends who I am still in contact with now.
